

Lime Green Classroom (12-18 months)

Welcome to the Lime Green Classroom. This classroom is the third step to your Child's journey here at Nanny's Early Learning Center.

Ratio: The ratio in this classroom is 4 toddlers to 1 teacher. This means that there will be a total of 8 toddlers and 2 teachers.

Curriculum: The teachers will interact with the toddlers by reading books, singing songs, creating fun sensory activities, playing with toys to help them progress in each developmental category, and engaging in conversation throughout the day. The children will also be provided with many visuals and materials to help them learn basic communication skills. Lastly, they will be encouraged to follow simple 1-2 step directions while in the classroom to build their comprehension.

Goals: The goals for this classroom are to help your toddler interact with other children, teach them basic first words, teach them basic facial parts, and teach them about sound and touch. They will be introduced to colors, and shapes.

Schedule: In this classroom, the toddlers have set eating times, a set nap time, and set learning, play, and outdoor times.

Items Needed: Your child will need diapers, a change of clothes, and a pillowcase.

What We Provide: We provide wipes, Sippy cups, 3 meals (including breakfast, lunch, and a snack), and bedding.

How to help your child: The best way to help your toddler is to get them on a routine at home so that they adjust easier when in their classroom. It is also great if you interact with your child through basic

play and build their communication by giving verbal directions and naming basic items they are engaging with.

What's next? The next step to your Child's journey is the Yellow Classroom.
