

Deep Sea Blue (4 & 5 Year Olds)

Welcome to the Sky Blue Classroom. This classroom is the Eighth step to your Child's journey here at Nanny's Early Learning Center.

Ratio: The ratio in this classroom is 10 preschoolers to 1 teacher. This classroom will run with 20 preschoolers and 2 teachers.

Curriculum: We follow the High Scope Curriculum and also incorporate some of our own ideas into the curriculum. The teachers will interact with the preschoolers by reading books, singing songs, having set learning times, engaging in play with the children, providing sensory time and teaching them basic social skills.

Goals: The goals for this classroom are to get the children prepared for kindergarten. Throughout the preschooler's time with us, they will learn colors, shapes, letter recognition, number recognition, how to properly write their letters, numbers and names, letter sounds, counting, sorting, patterns, position and direction, and amounts. They will be introduced to sight words and basic math.

Schedule: In this classroom, the preschoolers have set eating times, a set nap time, and set learning, play, and outdoor times.

Items Needed: Your child will need a change of clothes and a pillowcase.

What We Provide: We provide 3 meals (including breakfast, lunch, and a snack) and bedding.

How to help your child: The best way to help your child is to stay connected with what is going on in the classroom, attend family events that we host, work with the children at home on the things we work on in the classroom, and get them on a routine at home so that they adjust easier when in their classroom.

What's next? The next step to your Child's journey is Kindergarten and possibly our Lilac Classroom.
